ABOUT ME

A cooperative team player and a proven leader with an experience in developing code effective, maintainable and scalable web applications. A technology geek with great enthusiasm to delve into new technologies and take up the challenge. Lately a cloud discoverer to probe and provide great results and service to add values.

WORK EXPERIENCE

17/06/2021 – 11/09/2022 Kolkata, India
SYSTEM ENGINEER TATA CONSULTANCY SERVICES

• Documented and managed critical server operations, ensuring the stability and availability of infrastructure components vital to business continuity. Handled and resolved urgent alerts promptly, employing tools like AutoSys, Orion, and ServiceNow to diagnose, troubleshoot, and mitigate issues efficiently.
• Interacted directly with US based clients to understand their infrastructure needs and requirements, providing one-on-one support, gathering specifications, and ensuring alignment with service level agreements (SLAs).
• Utilized ServiceNow for tracking and managing incidents, maintaining comprehensive records, and streamlining the incident resolution process.

12/09/2022 – CURRENT Kolkata, India
CMS DEVELOPER TATA CONSULTANCY SERVICES

• Collaborated with a US-based client to understand their content management requirements and translate them into functional specifications for the website.
• Developed and maintained a robust Content Management System using ReactJS, ensuring a seamless and user-friendly interface for content editors to manage website content efficiently.
• Customized and implemented various features within the CMS, such as content publishing workflows,
media management, and user permissions, aligning them with the client's specific needs and industry standards.
• Conducted regular updates and maintenance tasks on the website, implementing enhancements and bug fixes to improve performance and reliability.
